

Dear Parents/Carers,

During this half term Year 3 will be starting their Sex and Relationships Education unit. This is part of the science curriculum and will be taught as a separate lesson each week across the half term.

The objectives covered will be:

- To introduce the concept of male and female and gender stereotypes
- To explore some of the differences between males and females and to understand how this is part of the lifecycle
- To explore the similarities differences between males and females and to name the body parts
- To consider touch and to know that a person has the right to say what they like and dislike
- To explore different types of families and who to go to for help and support

Mrs Pickard and I will be available after school on Wednesday 21<sup>st</sup> June at 3:30pm in Wrens classroom if you would like to discuss the materials or ask any questions about what your child will be learning.

Kind Regards

Lauren Ripley
