

26th June 2017

Dear Parents/Carers,

During this half term Year 5 will be starting their Sex and Relationships Education unit. This is part of the science curriculum and will be taught as a separate lesson each week.

The objectives covered will be:

- To explore the emotional and physical changes occurring in puberty
- To understand male and female puberty changes in more detail
- To explore the impact of puberty on the body and the importance of physical hygiene.
- To explore ways to get support during puberty.

Mrs Patterson, Miss Wickham and I will be available after school on Thursday 29th June at 3:30pm in Quails classroom if you would like to discuss the materials or ask any questions about what your child will be learning.

Kind Regards

Vicky Macken

UKS2 Leader
